CORNER WORKSTATION

CORNER WORKSTATIONS

Corner workstations allow for a more complete and integrated layout. They also make use of all available space for work and storage.

To order, choose "WITH" or "WITHOUT" cabinet under the work surface. Then configure your workstation. Options vary depending on the configuration chosen.

DISTINCTIVE FEATURES

- Ergonomic 36" or 40" work surface height
- Standard 30" work surface depth
- Choice of two configurations: with or without cabinet under the work surface
- Leveling glides included in each model for a stable and level workstation
- Designed to be placed against a wall or back to back
- Must be anchored to two cabinets of the same height and depth, one on each side (LA30, RA30 or RA35). See the Cabinet section (**see page 4**) or R Multi-Drawer Cabinet section (**see page 66**)
